CUTTING EDGE
RESEARCH IN
HOMEOPATHY

LONDON 2019

Filmed presentations

38 filmed presentations from the London 2019 Conference Programme are available to stream online.

All films can be viewed completely **free of charge**, thanks to the generous support of our conference film sponsors, Boiron.

The London 2019 films include 6 keynote presentations (30 mins), 26 oral presentations (15 mins) and 6 poster talks (7 mins).

A dropdown menu allows you to choose themed playlists for your convenience. With individual talks lasting from 5 to 30 minutes, you can listen to the best homeopathy researchers around the world at your own pace and convenience.

Watching all films will provide 11 hours of learning time, so check with your registering organisation for validity as a CPD activity.

For information about special arrangements for those running University or College courses, please contact us via communications@hri-research.org.

Playlists (for full list of talks see below)	Number of talks	Approximate duration
1 Keynote Presentations	6	3 hr
2 Systematic Reviews and the State of Play	5	1 hr 15 min
3 Clinical Research 1: Systematic Reviews & Meta-Analyses	2	30 mins
4 Clinical Research 2: Observational Studies	9	2 hr 15 min
5 Fundamental Research & Mechanism of Action	2	30 mins
6 Plant-based & Veterinary Research	5	1hr 15 min
7 Lab-based Research Models	3	45 mins
8 Poster Talks	6	1 hr

Any talks included in the conference programme but not listed here are unavailable, either because the work presented has not yet been published or due to last minute programme changes during the event.

Playlist 1 - Keynote Presentations

Prof Leoni Bonamin , Brazil. <i>Homeopathy and environmental challenges</i>
Dr Elizabeth Thompson , UK. <i>Cutting-Edge Research. What are the priorities for clinical research and evaluation for homeopathy to become a valued part of the Integrated Medicine Model?</i>
Dr Katharina Gaertner , Switzerland. <i>Outcome-specific review of controlled clinical studies with homeopathic medicines</i>
Dr Robert Mathie , UK. <i>The high-quality randomised controlled trials of homeopathic treatment, as defined by systematic review and meta-analysis</i>
Rachel Roberts , WS. <i>Challenging inaccurate, influential literature on homeopathy</i>
Dr Alexander Tournier , Ö. <i>Physicochemical investigations of homeopathic preparations: a systematic review</i>
Annekathrin Ücker , Germany. <i>Systematic review of plant-based homeopathic basic research: an update</i>

Playlist 2 - Systematic Reviews and the State of Play

Dr Katharina Gaertner , Switzerland. <i>Outcome-specific review of controlled clinical studies with homeopathic medicines</i>
Dr Robert Mathie , UK. <i>The high-quality randomised controlled trials of homeopathic treatment, as defined by systematic review and meta-analysis</i>
Rachel Roberts , WS. <i>Challenging inaccurate, influential literature on homeopathy</i>
Dr Alexander Tournier , Ö. <i>Physicochemical investigations of homeopathic preparations: a systematic review</i>
Annekathrin Ücker , Germany. <i>Systematic review of plant-based homeopathic basic research: an update</i>

Playlist 3 - Clinical Research: Randomised Controlled Trials

Dr Raj Manchanda, India. *Effectiveness of homeopathic medicines as add-on to institutional management protocol for acute encephalitis syndrome in children: an open-label randomized placebo-controlled trial*

Dr Roja Varanasi, India. *Effects of individualized homeopathic intervention in stage I essential hypertension: a single blind randomized, placebo controlled pilot trial*

Playlist 4 - Clinical Research: Observational Studies

Dr Jean-Lionel Bagot & Dr Ingrid Theunissen, France. *Homeopathy and expert consensus recommendations – unlikely bedfellows? New research in homeopathy and expert consensus recommendations in oncological supportive care*

Dr Gualberto Díaz-Saez, Spain. *A homeopathic medication can improve upper respiratory tract infections in COPD patients: EPOXILO cohorts study*

Dr José Eizayaga, Argentina. *Prevalence and likelihood ratio of 6 common objective homeopathic signs in patients responding to muriatic medicines. Multicentre prospective observational study*

Dr Anil Khurana, India. *An assessment of a public health initiative of homeopathy for primary teething*

Dr Russell Malcolm, UK. *Demographic review of outcomes in an NHS Homeopathy clinic*

Dr Cristina Noberasco (Dr Elio Rossi) - Italy. *Severity of radiodermatitis in breast cancer patients with preventive treatment with homeopathic/integrative protocol compared with a control group*

Dr Debadatta Nayak, India. *Effect of adjuvant homeopathy with usual care in management of thrombocytopenia due to dengue – a comparative cohort study*

Dr Elio Rossi, Italy. *Homeopathic treatment of atopic diseases: short and long-term results in a cohort of 563 atopic adult patients*

Aaron Ka Lun To, Hong Kong. *Safety and efficacy of individualised homeopathic treatment in sciatica – a phase I pre-post comparison study*

Playlist 5 - Fundamental Research and Mechanism of Action

Dr Steven Cartwright, UK. *Immobilisation of solvatochromic dyes on transparent membranes: a simple and effective method for investigating the physics of homeopathic potencies*

Dr Maria-Olga Kokornacyzk, Switzerland. *Homeopathic preparations in the low potency range studied by means of pattern formation in evaporating droplets: influence of succussion stroke number*

Playlist 6 - Plant-based and Veterinary Research

Dr Stephan Baumgartner & Sandra Würternberger, Germany. *Effects of homeopathic preparations of Mercurius corrosivus on the growth rate of mercury-stressed duckweed Lemna gibba L. as a function of different stress levels*

Dr Cidéli Coelho, Brazil. *Use of Papaver somniferum and Arnica montana in ultradiluted form to assist in anesthesia recovery and as an analgesia for dogs that underwent an ovariohysterectomy*

Paul Doesburg, Netherlands. *Replication and meta-analysis of specific effects of homeopathically prepared tin (Stannum metallicum 30x) with a cress seedling, CuCl₂ crystallisation 'fingerprint' approach*

Prof Christian Endler & Dr Corinne Kraus, Austria. *Further data on wheat germination and silver nitrate (10e-3 to 10e-25): low and medium dilutions*

Franzcinne Narita, Brazil. *Control of liver enzymes in Magellanic penguins (Spheniscus magellanicus) through ultradiluted medicine*

Playlist 7 - Lab-based Research Models

Dr Marta Marzotto, Italy. *In vitro* testing homeopathic drugs on bronchial cells

Prof Shahram Shahabi, United States. *Subcutaneous isopathic immunotherapy of allergic asthma in a mouse model of allergic asthma*

Dr Oskan Tasinov, Bulgaria. *Ferrum phosphoricum D12 treatment affects J774A.1 and 3T3-L1 cells proliferation and gene expression of inflammation, oxidative stress and iron metabolism related proteins*

Playlist 8 - Poster Talks

Dr Leena Bagadia, India. *A randomised control trial using individualised homeopathic treatment for modifying anger and thereby reducing blood pressure in patients of essential hypertension against standard care treatment*

Dr Francisco Eizayaga, Argentina. *Homeopathic treatment of psoriasis, a case series*

Prof Elizabeth Macera, Swaziland. *Symptom severity and functional status in patients with joint pain, back pain, headache, and cough: a 10-year retrospective analysis of The Swaziland Homeopathy Project*

Dr Amjith Naisam, India. *Homoeopathic management of tomato leaf curl virus using psorinum*

Dr Carlo Maria Rezzani, Italy. *Clifical: first result of Carcinosinum patient cases*

Domingos Jose Vaz Do Cabo, Brazil. *Proposal homeopathic treatment guidelines for patients with hepatitis C*
